## NOSTRILS AND HEAD STOPPED UP FROM COLD TRY MY CARTARRH BALM

Instantly Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasty Catarrh Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

the nostrils; penetrates and heats the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh, or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly need less.

Put your faith—just once—in Ely's Cream Balm and your cold or catarrh will surely disappear. (No. G.)

Catarrh Cannot Be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription.

It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

F. J. CHENEY & CO., Props., Toledo O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation. (Adv.)

## LIQUIDATING AGENT MAY PAY DEPOSITORS

Judge Browning Decides On Bank Injunction—Depositors May Be Paid Soon.

In the case of E. L. Smith against W. W. Collier, Commissioner of Insurance and Banking of the state of Texas, Judge Browning yesterday afternoon in District Court dissolved the injunction heretofore served on the Commissioner and J. O. Root, his special liquidating agent, who has charge of the First State Bank of Amarillo, except in so far as the injunction prevented the Commissioner from levying and collecting assessment of one hundred per cent against the stockholders, and the injunction in that respect was continued in force. "until it is shown to the court to be reasonably necessary that the assessment and collection from such stockholders be made to pay off the debts and wind up the affairs of the bank."

Judge Browning said in rendering his decision that it was his opinion that the writ of injunction never was capable of the construction that it prevented the Commissioner from paying the depositors promptly, but that if there was any doubt on that question the order now granted would make it plain that the Commissioner is not restrained in that respect.

It would appear from the court's decision that no hindrance is now in the way of the Commissioner from paying promptly the depositors of the unfortunate institution and that the Commissioner's action with reference to winding up its affairs is untrammelled, but that under the court's decision the Bank Commissioner must apply to the court before he can collect any assessment against the stockholders, and upon to the court that such action is reasonably necessary and that the funds and assets of the bank on hand will likely not be sufficient to pay its liabilities and to reimburse the state guaranty fund for the monies used by the Commissioner in promptly paying the depositors.

## SURVEYING PARTY TO USE AUTOMOBILE TRUCK

Coast and Geodetic Surveyors Find They Can Save Half of Expense In Work

WASHINGTON, D. C., May 5.—C. V. Hodgson, of the Coast and Geodetic Survey, Department of Commerce, has recently left Washington for the southwestern part of the United States, where he will have charge of a party for the determination of the astronomic latitude of triangulation stations established by the Coast and Geodetic Survey and the United States Geological Survey between Barstow, Tex., and the Pacific Ocean. Many of these stations are on mountains as much as 10,000 feet in height. The result of this work will be used principally for geodetic purposes, that is the determination of the figures of the earth, and the distribution of material in the earth's crust.

The means of transportation for this party will be a 1 1/2-ton automobile truck which was used successfully on similar work between Denver, Colo., and the Canadian border in the season of 1912. A similar truck had been employed also in 1912 on the 49th parallel boundary survey between the United States and Canada. The cost of the work during the season of 1912 is estimated as only one-half what it would have been if horses and wagons had been used for transportation. The saving in the coming season is expected to be even greater, as the country to be traversed is arid or semiarid and the transportation of water and forage for stock would have been a difficult problem. It is expected that the work will continue until late in the autumn.

The conditions in which the truck was used were such as to require very frequent transportation of men and material between widely separated points, and in a region remote from the ordinary means of communication.

In the experience with the truck in 1912 it was found that a field party and its equipment could cover easily from 75 to 100 miles in a day, over indifferent roads, including stops for gasoline, supplies, etc., en route. The machine will haul this load anywhere that four horses can, and in one-fourth the time. It is equipped with solid rubber tires, dual behind, and with extra tanks for gasoline and water. The weight of the truck is about 6,100 pounds and the weight of the equipment of all kinds carried, but excluding the weight of the three passengers, is about 2,000 pounds, thus bringing the weight of the entire outfit to more than four tons. On the average, one gallon of gasoline was used for every 5.2 miles, and one gallon of oil for every 61 miles.

The chief limitation in the use of the truck for surveying work arises from its weight, but a lighter truck would answer in some classes of work. Green poles were carried to place in front of the dual-tired rear wheels in passing through deep sand and mud and heavy planks were carried for reinforcing the flooring of weak bridges. For use in mud or sand the dual tire possesses a great advantage over the single tire, but on the deeply rutted prairie roads the duals were found to wedge and bind in the ruts, so that it was necessary to take to the prairie alongside the road. For a skid chaul a heavy close-linked rather flat chain about 17 feet long was used. This was wound about six times around the rim an ddrives of each wheel and the ends fastened by heavy buckled straps by which the slack could be taken up.

Yes, Yes! A girl with a face as pretty as a picture may be spoiled by an ugly frame of mind.

## HIGHWAY PATHFINDERS ARRIVE THIS EVENING

From Oklahoma and New Mexico Auto Parties Are on Way Toward Amarillo Today

This afternoon eight men in autos will arrive in Amarillo from Sere, Oklahoma, from which point they started Monday morning. They are pathfinders of the proposed interstate highway from Oklahoma City to Tucumcari. Amarillo pilots will meet them at 6 o'clock this afternoon and escort them to our city.

At 7 o'clock the Tucumcari delegation will be joined by P. R. Landrege and other route enthusiasts, who will also be visitors here tonight. The Amarillo Motor Club will entertain the visiting motorists at luncheon tonight at Hotel Amarillo. About seventy-five will partake of the hospitality. The later evening hours will be devoted to a smoker and general sociability in the Chamber of Commerce quarters.

All members of the Motor Club as well as interested citizens are invited to participate in the informal entertainment of the visitors.

## ST. ANDREW'S CHURCH IN PROSPEROUS WAY

Parish by Resolution Committed to Erection of New Church at Same Time In Future.

St. Andrew's Episcopal Church held its annual parish meeting Monday night, and marked the beginning of a definite advance in its work by the passage of a resolution committing the parish to the erection, at some time in the future, of a new church building, such as will do credit both to the city and to the congregation.

The creation of a building fund was authorized, and while no active campaign for raising money for this fund will be undertaken at present, there is every assurance that it will have a gradual growth which will keep "the pew church" in the minds of the parish workers as a goal for their endeavor.

The annual report of the Treasurer showed that finances of the church are in good condition, with all assessments and apportionments for extra-parochial and benevolent purposes either paid or over paid. The Board of Trustees or "Vestry," as it is called in the Episcopal church, was elected as follows, to serve one year: H. W. Galtrecht, Senior Warden; C. J. E. Lowmiller, Junior Warden; C. H. Vogt, H. C. Harding, J. W. Walittle, Dr. G. S. Murphy, F. E. Edwards, J. W. Whittle and W. B. Dohoney were designated as lay-delegates to the annual convention of the District of North Texas, which is to meet in this city May 24th and 25th.

## Personals

A. L. Bell and John Bell, Jr., of Tampa were visitors in the city Tuesday morning.

M. M. Wesley, of Happy, was among the metropolis visitors Tuesday morning.

W. Roberts, of Plainview, spent part of Tuesday in the city.

M. L. Holland, of Canyon City, was among Amarillo visitors Monday and Tuesday.

W. D. Jordan, the well-known stockman, is spending a day or two in the city.

J. R. Sharp, of Plainview, shook hands with Amarillo friends Tuesday.

Miss Evelyn Claeter, of Canyon City, was among the metropolis visitors Tuesday.

Attorney Otis Truelove, of Plainview, attended to local business in the city Monday, returning home Tuesday morning.

Geo. W. Chalfont, superintendent of the Clovis city water and light plant, spent Tuesday in Amarillo on business.

Mat. Hutch, a ranchman from the Sere vicinity, was a business visitor in the city Tuesday. Mr. Hutch reports ample rains, excellent pastures and fine wheat fields for his section of the Panhandle.

SOUTHWESTERN COAL COMPANY FILES CHARTER IN AUSTIN

AUSTIN, Texas, May 5.—The charter of the Southwestern Coal Company of Amarillo was filed today in the State department. Capital stock \$40,000.00. Incorporators: Earl Cobb, R. D. Draper and R. E. Hanson.

Eugenie's 88th Birthday.

London, May 5.—The ex-Empress Eugenie, who has been making her customary spring sojourn in the south of France, attained her eighty-eighth year today, having been born May 5, 1826. During the past winter the ex-Empress has suffered from a series of colds which, though slight, have caused considerable inconvenience on account of her age and enfeebled condition.

## DECORATING FOR THE U. C. T. CONVENTION

Woodman Hall, Meeting Place of Istos, Garbed in Brilliant Colorings

In order that the delegates to the Grand Council of the U. C. T. gathering and the Panhandle judges and commissioners shall see the city in gala attire, and in keeping with the hall-well-met demeanor of our people on the festive occasion, the W. O. W. Hall, where the U. C. T. will meet, has been profusely decorated with flags, bunting, emblems and sundry appropriate colorings.

I. D. Cole, general supervisor and decorator-in-chief, has demonstrated his ability as an artist in the decoration of the hall, and today the decoration throughout the business section of the city will take place.

It is but proper that all should take part in the work of putting on a holiday attire in honor of the visitors who will be with us for the remainder of the week. A few flags, a little bunting, and a pleasant smile will do more toward making the strangers feel at home than anything we can do.

An elaborate program has been prepared for the proper entertainment of the guests, both ladies and gentlemen. Pleasant talks will be given in all sections of the state, far and near. Their impression of Amarillo and the Panhandle will depend upon the reception accorded them by our citizens. We know how to entertain. The spirit of hospitality is strong with us. The opportunity to demonstrate this fact to good advantage is offered us by these conventions. The News rests secure in the foregoing conclusion that Amarillo will once more acquit herself honorably.

B. T. AND RICHARD WARE RETURN FROM RANCH

B. T. Ware, president of the Amarillo National Bank, and son Richard, returned Tuesday morning from their Buffalo Springs ranch in the northwest Panhandle. On account of the washout of the Denver bridge at Tacoma they came by way of Tucumcari.

The gentlemen report from eight to ten inches of rain in the north Panhandle country, which fell the latter part of last week. Lakes are filled to overflowing, creeks and draws are veritable rivers, and while they have been inconvenienced by being isolated from the civilized world for a few days, the deluge will prove a blessing, they say, in that stockmen and farmers see in it rich pastures and abundant crops.

# Stypleplus Clothes \$17

"The Same Price The World Over"

## Victory for the Ready-to-Wear Clothes

Have you worn a ready-to-wear suit lately? If you have not, you cannot appreciate the great strides made by the most progressive clothing maker during the last few years.

Only two years ago, Henry Sonneborn & Co., after specializing on medium-priced clothes for 64 years, turned the whole energy of their equipment upon making one suit at one price, STYLEPLUS CLOTHES \$17. As a result you get style plus values at a medium price. The styles are designed by a highly-paid and highly-skilled artist. If this man were to work for a custom tailor, he would be in one of the most expensive shops in New York.

More than style. Stypleplus all-wool fabrics plus good workmanship plus guaranteed satisfaction. This is the new deal in ready-to-wear clothes at the moderate price, \$17.

Better try a suit this Spring. We are ashamed to tell you what equal values would cost you in made-to-measure clothes, and we confidently say that few custom tailors can approach the style in this special suit. All styles, including special models for young men.
